The Invitation Letter to submit a formal grant application for the Public Schools on Military Installations Manzanita Public Charter School project is attached. Congratulations on this milestone!

Over the next few days, I will create accounts for you or your identified leads in our grants application portal. You will use the portal to submit your grant application. Prior to formally submitting the application in our portal, you can start working on the attached Microsoft Word template. Using the template is the best way to get your application in final draft status before submitting it in our portal. I will work with you to ensure your application is ready to import in the grants portal.

During our call tomorrow (or shortly after), we can identify a time to go over the template and the next steps in the process in detail.

Congrats again!

Very Respectfully,

Louis

- \sqcap N/A
- ☐ Assist communities responding to defense impacts as directed by the Department of Defense and/or statute (Select this one)

Goals related to the OEA mission

(Proposed Template Text)

Execute congressionally authorized and appropriated projects "owned by a State or local government, or a not-for-profit, member-owned utility service to address deficiencies in community infrastructure supportive of a military installation, if the Secretary determines that such assistance will enhance the military value, resilience, or military family quality of life at such military installation." The [insert project name] is on the approved [confirm it is the Secretary's list this FY] Secretary of Defense "Public Schools on Military Installations" priority list and has been invited to apply for a grant.

CAGE Code: Add the CAGE code

Grant Introduction/Background

Extract text from the project proposal. Edit if necessary for conciseness and clarity. Should discuss the background that led to the need for the project at the installation. Recommend a paragraph or two, but not more than one page.

Need for Assistance

Identify project as military value, resilience, or a quality of life enhancement. Use the assessment made by the review panel if it differs from the proposal.

Extract text from the project proposal.

Narrative should discuss the need for the project for both the military installation and the community.

Narrative should extract language directly from the Installation Support Letter included with the proposal.

Recommend one to three paragraphs maximum.

Grant Abstract

Include a concise one paragraph abstract. The abstract should identify the grantee, what the project will accomplish/construct, and expected benefits to the installation and community. The abstract should quantify specifics where applicable (e.g. 50,000 square foot facility, indoor vs outdoor space, to benefit XX students, etc.). Should conclude with: The [Project name] addresses the [Enhancement category - military value, resilience, Quality of life] needs at [installation name].

Results or Benefits Expected

Extract text from the proposal. This should mirror the need for assistance discussion.

Approach and Timeline

Approach

Include a short discussion addressing the following elements:

• Execution approach to include project parties, sub awards, planned contracts, and the project delivery/execution method.

Include status and/or approach for each of the following elements (as applicable). Can use bullets, sentences, up to a paragraph for each element. Reference any attached supporting documentation that demonstrates completion of these elements.

- Design:
- Construction Bid Documents:
- Site Control:
- NEPA:
- Match Funding: (sources and availability)
- Permits
- Sub award agreements
- Contracting
- Performance Bond
- 3rd party cost estimate/risk discussion

Identify any special execution considerations based on the scope, location, or other challenges.

Timeline:

Include the requested grant period start and completion dates (needs to match the SF424)

Reference and attached schedule or the project proposal.

Extract and list the proposed project development schedule dates for inclusion in the grant award.

Scope of Work/Work Program

Summarize what the project is constructing. Recommend one paragraph with reference to the attached proposal.

If the PM sees a need to clarify what's in the proposal, please see the PD or PSMI administrator for guidance on including a supplemental scope of work.

Application Attachments

Please attach the original project proposal and any supporting documentation as discussed above. (Please note: the IT team is expected to pre-populate the proposal; however, if not, the OLDCC PM is to upload the proposal. PMs should take care that the applicant does not upload these documents themselves to avoid the risk of changes being made to the proposal. Clarifications can be discussed in the narrative; however, the reference proposal needs to be exactly as submitted minus the SF424)

Also, recommended that the applicant either include draft NEPA documents or the completed NEPA checklist outlining potential environmental concerns of the project.

Budget Tab

PM will need to work with the applicant to disaggregate proposal budget into SF424C format. Be mindful of the following:

Federal vs non-federal share

Pre award costs

Planning and design needs to show on the non-federal side of the ledger

Equipment costs

Contingency (construction vs project) – This may impact future amendment requests.

The budget tab in EADS does require a budget justification attachment be uploaded. The proposal will need to be mined for an appropriate reference to upload. This reference could be a summary table of the proposed budget or copy of the proposal's Independent 3rd Party Cost Estimate. Be mindful that the reference provided will need to match what is on the SF424C.

Assurances and Certifications

Please follow normal grant protocols for assurances and certification.

TRC Information

Source of Match

List all match sources and opine on their availability and supporting documentation.

Timeline

List the proposed grant start and end dates and the proposed project development schedule. Identify any schedule concerns or anomalies.

DoD Action

(Proposed Template Text)

Execute congressionally authorized and appropriated projects "owned by a State or local government, or a not-for-profit, member-owned utility service to address deficiencies in community infrastructure supportive of a military installation, if the Secretary determines that such assistance will enhance the military value, resilience, or military family quality of life at such military installation." The [insert project name] is on the approved Secretary of Defense "Public Schools on Military Installations" priority list and has been invited to apply for a grant.

Goals and Objectives

Mirror the grant abstract and supplement if needed.

Deliverables

Include the statement that recommended PSMI deliverables have been included. Call out any exceptions or additions to the list above.

PM Programmatic Assessment

Address if the proposal is reasonable, allocable, and allowable. Acknowledge the PSMI review panels determination that the project meets the PSMI eligibility criteria. Comment on the applicant's ability to execute the project, prior grant experience, and any PM concerns with the organizations ability to execute the project. Discuss any PM concerns to meet the timeline. Discuss any PM concerns with the proposed cost. Discuss any PM concerns with the scope. If there are no concerns, please state so.

PM recommendation

Recommend approval of the application either as submitted (or with corrections/conditions). If you can't make that recommendation, you need to elevate to the PD and PSMI Administrator as soon as the issue is identified!

PROPOSED CHANGES TO BUDGET

- The proposed changes to the budget for the 2nd Interim include:
- Revenues:
- LCFF Funds decrease \$76,413 due to lower ADA (405, was 410) Discuss below
- 2021/2022 Attendance is now funded based on current data. The 405 ADA is a conservative approach as we don't yet have the final P2 report due in April that our funding will be based on. Multiyear projections also are based on a lower ADA (405). Once data is completed and if ADA is higher than extra funding (\$50-75,000) will cover the deficit spending.
- Overall Revenues decreases \$75,196
 - <u>Expenses</u>
 - Salaries decreased (estimated) \$6,100
 - Supplies decreased \$15,000 initial budget was too high and covid funds paid for some classroom supplies
- Contracts decreased \$30,088 –Here's what changed:
 - Professional Development reduced \$40,000 budget was over estimated as retreat costs were partially paid for last years budget in June 2021
 - Cafeteria overhead reduced \$2,000 due to universal free lunches, LUSD no longer sending bills for and MOU revised to include delivery only
 - Printing was increased again \$3,000 due to increased need
 - Student services was increased \$6,000 due to extra assembly events
 - Oversight fees were realigned to cover the 3% fees (annually) \$2292 (decreased)
- Special Ed Contribution from general fund remains unchanged
- Overall expenses increase costs: \$53,480
- Net change in budget for 2nd Interim = (21,716) Increasing deficit from \$81,582 to \$103,298
